(54) Title: A HYBRID STRUCTURAL MODULE

**WO 2004/044342 A1**

(57) Abstract: A hybrid structural module (10) comprising a tubular fibre composite member (20), a filled resin system (30) located within said tubular fibre composite member, and at least one elongated steel member (40) located within the filled resin system, wherein the filled resin system binds the steel member and tubular member together.
